6	Optional Procedures	37 - 38
7	Summary Of Progress On Clinical Practice Records	39 - 41

General Information

This Clinical Practice Record will help to monitor staffs activities in the respective area. They are expected to complete all the procedures identified in Peri Operative Nursing.

The procedures have been categorized as core list of procedures where the staffs must obtain the minimum number of activities as stipulated for each procedure. The other list of procedures are optional where the staffs should try to get experiences in the clinical areas. However if they are not available, staff will stimulates the procedures to ensure that they have been exposed.

This Clinical Practice Record is reserved only for the Ministry of Health, Malaysia.

Components in the Clinical Practice Record

The Clinical Practice Record covers three (3) student's activities:

1. **Observe** - to observe procedures being done
2. **Assist** - assist or perform under supervision
3. **Perform** - perform

Assessor

Recording and Assessment of Clinical Practice will be carried out by appointed personnel only. Any practice performed and certified by unauthorized personnel will be consider null and void.

LIST OF CORE PROCEDURES

NO	PROCEDURE	PAGE
1	Assessment Of Patient On Arrival To Operating Theatre	6
2	Preparation For General Anaesthesia	7
3	Assist During Induction Of General Anaesthesia	8
4	Preparation For Regional Anaesthesia	9
5	Assist During Regional Anaesthesia	10
6	Handling Of Electro Surgical Unit	11
7	Care Of Patient With Tourniquet	12
8	Care Of Patient In Supine Position	12
9	Care Of Patient In Lateral / Kidney Position	13
10	Care Of Patient In Lithotomy Position	13
11	Care Of Patient In Prone Position	14
12	Care Of Patient In Orthopaedic Extension Position	14
13	Care Of Patient In Trendelenburg Position	15
14	Surgical Scrub, Gowning & Gloving	15
