## **PREMIER INTEGRATED LABS LAUNCHES MALAYSIA'S FIRST AI-ASSISTED FULLY AUTOMATED HEMATOLOGY SYSTEM IN PRIVATE PRACTICE**

*Marking a milestone in healthcare innovation  
through partnership with Mindray*

**Kuala Lumpur, 16 October 2025** — Premier Integrated Labs today introduced Malaysia's first AI-assisted, fully automated hematology system in private practice, the CAL 8000 by Mindray, marking an important step forward in diagnostic innovation.

The launch, themed *Pioneering Progress Together: Advancing Partnership and Innovation,* was officiated by YB Dato Lukanisman Bin Awang Sauni, Deputy Minister of Health Malaysia. He was joined by Dr Kamal Amzan, Chief Executive Officer of IHH Healthcare Malaysia, Hareeff Muhammed, Chief Executive Officer of Premier Integrated Labs, and Mindray's regional leadership team.

Premier Integrated Labs, under IHH Laboratories and part of IHH Healthcare Malaysia, is one of the country's leading medical diagnostic providers.

The installation of Mindray's CAL 8000 system strengthens Premier Integrated Labs' capabilities by integrating intelligent sample management, automated hematology, and data connectivity solutions. The system streamlines workflow, improves efficiency, and enhances diagnostic precision, reinforcing Premier Integrated Labs's focus on innovation and clinical quality through collaboration.

By combining automation and AI, the CAL 8000 enables faster turnaround times and greater diagnostic accuracy. This allows laboratory scientists and pathologists to devote more time to data interpretation and patient care, ultimately improving clinical decision-making and patient outcomes.

"This installation represents more than a technological advancement. It reflects our ongoing commitment to innovation, accuracy, and excellence in diagnostics," said Hareeff Muhammed, Chief Executive Officer of Premier Integrated Labs. "Together with Mindray, we are proud to pioneer this progress and set a new standard for private healthcare in Malaysia."

Dean Zhang, General Manager of Mindray APAC, highlighted, “We are proud to partner with Premier Integrated Labs in bringing state-of-the-art laboratory automation to Malaysia. This milestone reflects our shared vision of driving digital transformation in diagnostics and supporting better healthcare outcomes through innovation.”

The collaboration between Premier Integrated Labs and Mindray, a global leader in medical devices and laboratory automation, underscores the role of strategic partnerships in driving meaningful change within the healthcare sector.

In his officiating speech, YB Dato Lukanisman commended the initiative, noting that it aligns with the Ministry of Health’s vision to advance healthcare sustainability through technology, digitalisation, and data-driven practices.

“The Ministry welcomes such initiatives that support the Health White Paper’s direction, building a resilient, high-performing healthcare system through innovation and partnership,” he said. “I congratulate Premier Integrated Labs and Mindray for this forward-looking collaboration that contributes to better health outcomes for Malaysians.”

Guided by IHH Healthcare’s purpose of touching lives and transforming care, Premier Integrated Labs continues to advance diagnostic innovation that improves patient outcomes, empowers clinicians with actionable insights, and enhances the overall quality of care in Malaysia.

The introduction of the CAL 8000 system reflects Premier Integrated Labs’s ongoing commitment to redefining diagnostics through automation, AI, and clinical excellence, ensuring every test result contributes to safer, more effective patient care.

## **ABOUT PREMIER INTEGRATED LABS**

Premier Integrated Labs is one of Asia's leading medical diagnostic laboratories under IHH Laboratories, and part of IHH Healthcare Malaysia, all within the IHH Healthcare global network.

With 34 labs located across the country, Premier Integrated Labs serves specialists, general practitioners, medical clinics, medical centres, and major tertiary hospitals, aiding in the diagnosis, treatment, and monitoring of patient health. Our services range from fundamental Haematology testing to highly advanced Cytogenetic and Molecular Diagnostics.

Premier Integrated Labs performs more than 32 million tests annually on average, supported by competent technical personnel and experienced pathologists who ensure high-quality results. The accuracy and efficiency of our laboratory services are critical in helping physicians make informed treatment decisions, ultimately enhancing the patient experience.

Premier Integrated Labs implements a Quality Management System based on ISO 9001:2000 to ensure high-quality healthcare delivery. We hold accreditations from CAP and ISO 15189, as well as MSQH and JCI in line with the standards of IHH Healthcare Malaysia's hospitals.

To meet the evolving needs of healthcare, Premier Integrated Labs continuously improves its services by adopting the latest technology and offering an ever-expanding range of comprehensive pathological tests. We utilise state-of-the-art technology and cutting-edge equipment to ensure high-quality results and excellent patient care.

## **ABOUT MINDRAY MALAYSIA**

Mindray (Mindray Bio-Medical Electronics Co., Ltd.) is a global leader in medical technology and solutions, committed to advancing healthcare worldwide. In Malaysia, Mindray provides comprehensive medical device solutions through its local operations, supporting hospitals, clinics, laboratories, and healthcare providers nationwide.

Mindray's innovations span Patient Monitoring & Life Support, In-Vitro Diagnostics (IVD), and Medical Imaging Systems, with a growing emphasis on Artificial Intelligence (AI) integration. By leveraging AI-driven analytics and intelligent diagnostic platforms, Mindray enhances clinical accuracy, operational efficiency, and decision-making in modern healthcare.

Through continuous investment in research and development — and with the vision of "*Better Healthcare for All*" — Mindray Malaysia delivers cutting-edge IVD technologies and AI-enabled solutions to empower healthcare professionals, expand access to quality care, and improve patient outcomes.

For inquiries and support in Malaysia, contact Mindray Malaysia in Kuala Lumpur at +60 3-6730 7918 or visit [www.mindray.com](http://www.mindray.com)
